Global GHG abatement cost curve beyond business as usual – 2015

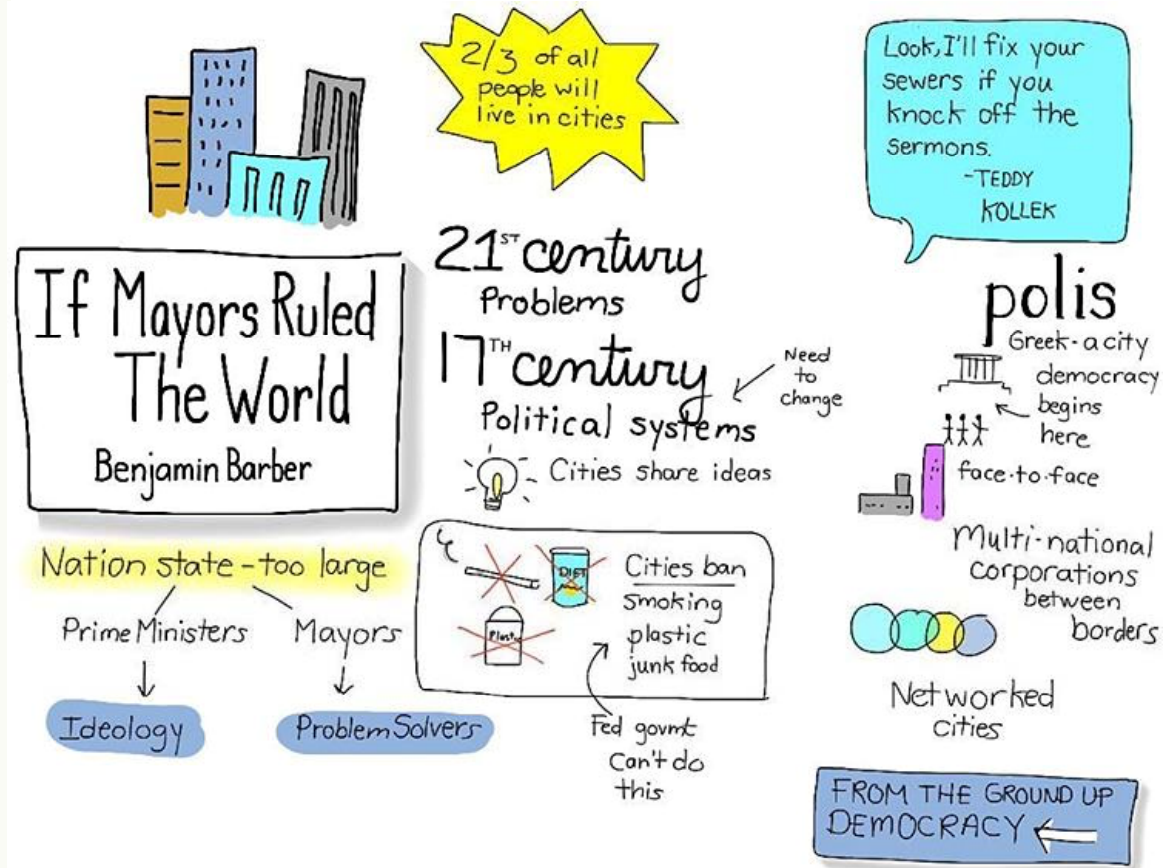

Note: The curve presents an estimate of the maximum potential of all technical GHG abatement measures below €60 per tCO₂e if each lever was pursued aggressively. It is not a forecast of what role different abatement measures and technologies will play.

How the Digital Revolution is Accelerating Innovation,
Driving Productivity, and Irreversibly Transforming
Employment and the Economy

When Workers Began Falling Behind

Until the 1980s labor productivity, real GDP per capita, private employment, and median family income all rose in tandem in the U.S. Then median income started to trail, and around 2000 job growth slowed.

State handouts for all? Europe set to pilot universal basic incomes

Switzerland is poised to hold a referendum on introducing the concept, and Finnish and Dutch pilots are set for 2017

For your comments about this discussion, please visit <http://www.socadms.org.uk/rise-alternative-currencies/>.

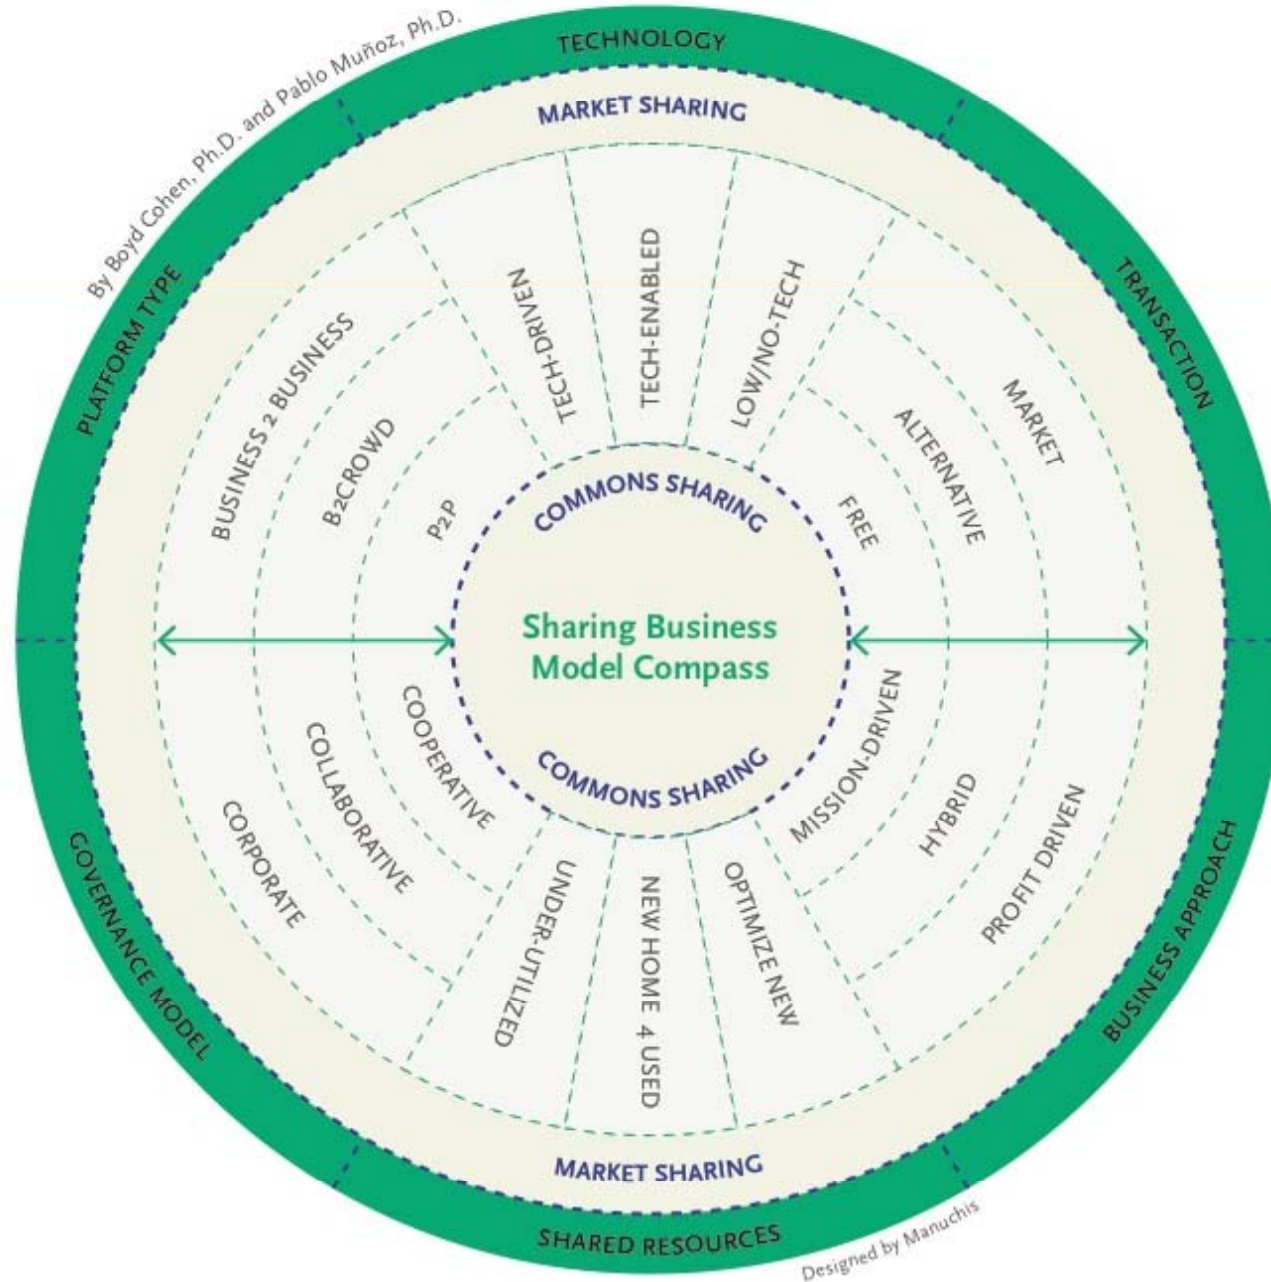

During this decade we have witnessed the introduction or scaling of several forms of alternative currencies. The Alternative Currency Database includes more than 300 local alternative paper currencies. Cryptocurrencies such as Bitcoin represent non-government backed digital currencies that have grown substantially through the underlying blockchain technology. Timebanking is another form of alternative currency where more than four million hours of time have been exchanged for future time from network members around the globe.
